On 21<sup>st</sup> Feb.2018 Prof. Jacque and Davis wowa arrived in Karonga CLC around 4pm Malawian time.we were welcomed at the church-Karonga warmly.we had chance to see the testing garden at the church as you can see.

There after,we maize were led to see another testing garden –early planting close to the River Lukulu, the garden is wonderful with good maizeas you cansee.

Here we see prof. Jacques Breman explaining new ways of applying fertilizer into the rice crop which attracted many as you can see. on 21<sup>st</sup>.

Today the 22<sup>nd</sup> of Feb, we had worship service with holy communion, though it was during the working days but some attended.

There after, Prof. Jacque came up with his lessons –know that this is training the trainers.

After teaching for 3 hours Jacque presented certificates to those who showed up four men received the certificates-karonga CLC

There after, we had to go out where Prof Jacque had to show the members space and how to apply NPK fertilizers and Urea .Then ,round 4:50pm we closed the teaching session, how pleasant it was , members commented that it was good and asked that God willing , let it be done again.

May God bless America! tomorrow we are leaving for Mzuzu CLC .will hold the same lessons on Saturday and Sunday, worship service with Lord's supper. More and final report soon. God bless you ,Davis. CLCMS
